

Declaration of compliance

REACH (EC) No. 1907/2006

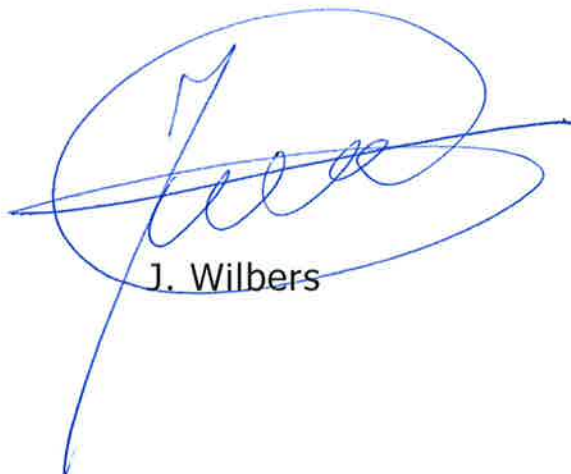

B.V. Twentsche Kabelfabriek ("TKF") hereby declares that it complies with the European REACH Regulation (EC No 1907/2006).

TKF qualifies as a downstream user as defined in the REACH Regulation. The products that TKF supplies qualify as articles and preparations, which means they are not subject to registration under REACH. Some of TKF's suppliers, however, do supply substances in preparations. Therefore, TKF requires its suppliers to comply with the REACH Regulation.

TKF monitors its compliance with the REACH Regulations by continuously checking the relevant declarations list and/or product safety data sheets (MSDS) for each product it receives and by keeping track of any new substances that are added to the relevant Candidate List.
