DESCRIPTION

Application

The 22.5x45mm blank module is designed to be used with the Essential 45x45mm frame N200.645. It allows filling up the unused space when only one port is required in the outlet.

Design & Installation

The blank module can be easily clicked into the 45x45 Essential frame.

The plastic material is UL 94V-0.

The modules come in glossy white and are packed per 25 pcs.
