

# TYPE APPROVAL CERTIFICATE

**This is to certify:****That the Electric Power Cable**with type designation(s)  
**ÖLFLEX® CHAIN 90 CP**

Issued to

**U.I. Lapp GmbH  
Stuttgart, Germany**is found to comply with  
**DNV GL rules for classification – Ships, offshore units, and high speed and light craft****Application :****Product(s) approved by this certificate is/are accepted for installation on all vessels classed by DNV GL.****Rated voltage (kV) 0,6/1  
Temp. class (°C) 70 (acc. IEC 60092-352)**Issued at **Hamburg** on **2020-12-08**for **DNV GL**This Certificate is valid until **2025-12-07**.DNV GL local station: **Augsburg**Approval Engineer: **Carsten Hunsalz**

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV GL AS, its parent companies and subsidiaries as well as their officers, directors and employees ("DNV GL") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

## Product description

Type: ÖLFLEX® CHAIN 90 CP

Rated voltage:	U <sub>0</sub> /U = 600/1000 V
Max. operating conductor temperature:	70 °C acc. to IEC 60092-352 or according to manufacturer`s instruction
Conductor:	Flexible stranded copper class 6
Insulation:	TPE (Thermoplastic Elastomer)
Screen:	Tinned copper wire
Outer sheath:	TMPU (thermoplastic Polyurethane)

Number of cores:	Cross-sectional areas:
1	1,5 to 300 mm <sup>2</sup>

## Application/Limitation

Power cable

Depending on the installation methods the cross section of the cable conductor shall be selected according IEC 60092-352 ANNEX A or according the manufacturer`s instruction.

Ambient temperature range: -50°C to +80°C fixed installation

## Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the Type approval are complied with and that no alterations are made to the product design or choice of materials.

The main elements of the assessment are:

- Inspection on factory samples, selected at random from the production line (where practicable)
- Results from Routine Tests (RT) checked (if not available tests according to RT to be carried out)
- Review of type approval documentation
- Review of possible change in design, materials and performance
- Ensuring traceability between manufacturer's product type marking and Type Approval Certificate.

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.
