

Modular Patch Panels for Snap-In Connectors

LANmark Patch Panel 24 Angled Snap-In Black

Nexans Ref.: N521.680BK

- Straight Panel with Angled Connectors to save patch guides and reduce rack space
- Universal design supporting Unscreened and Screened Snap-In Connectors
- Robust steel construction
- 24 ports on 1 HU

DESCRIPTION

The LANmark Panel angled connectors is a shielded 19"/1U patch panel with a fixed tray for up to 24 regular RJ45/GG45 Snap-In connectors, which are mounted in an angled position inside the panel.

Six Dual Port Packs are mounted on each side, so that 12 connectors pointing to the left side and 12 connectors pointing to the right side.

Due to the angled design of the Dual Port Packs, it is possible to patch without any cable management panel above or below the LANmark Panel. Snap-In connectors can be easily fitted into the patch panel by using blue Keystone Clips, which are delivered with the panel. The packaging of the panel does not contain connectors but is including 24 Keystone Clips for Snap-In connectors.

The patch panels are designed for standard 19" enclosures, are 1U high, and support the following common features:

- Front colour black, similar to RAL 9005
- Designed for screened and unscreened Snap-In connectors
- Compatible with all performance categories of connector
- 24 Ports available; port numbering from left to right
- Robust steel construction
- UL94V-0

Modular Patch Panels for Snap-In Connectors

LANmark Patch Panel 24 Angled Snap-In Black

CHARACTERISTICS

Construction characteristics

Colour	Black
Material	Steel

Dimensional characteristics

Height/unit	1 U
Depth	17 mm
Width	19 inches
Wall thickness	- mm
Approximate weight per piece	- kg

Usage characteristics

Field of application	Fixed installations
Resistance to vibrations	-
Mechanical Resistance	Good mechanical resistance
Mechanical durability/matings	-
Number of ports	24
Packaging	Box
